

# CREATING DIGITAL CONTENT WITH THE UTILISATION OF FREE ONLINE RESOURCES

*ERASMUS+ VET, Strategic partnerships for Digital Education*

## TRAINING PROGRAMME

*E-learning >*

The European project DigiVET project has created different resources for the Vocational Education and Training (VET) field.

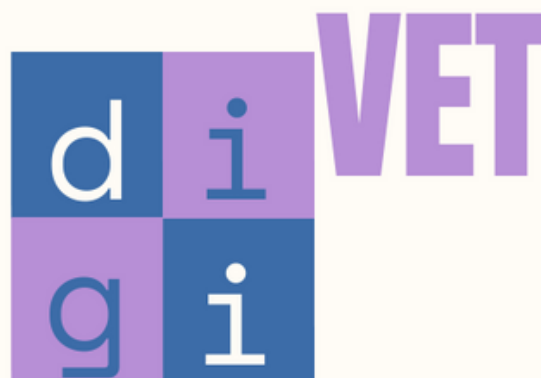

The DigiVET e-Learning training programme is available through the DigiVET webplatform and offers teachers and trainers of the VET field information and digital resources on different key topics. It includes 7 training modules involving 30 hours of online learning in English as well as in French, German, Greek, Italian, and Romanian.

- M1** Challenges and opportunities for incorporating digital content in VET
- M2** Organizing the learning process in a digital environment
- M3** Creating interactive and engaging content for learning
- M4** Creating effective online learning communities in digital era
- M5** Creating and delivering asynchronous presentations and training sessions; authoring tools
- M6** Assessing learning in digital education
- M7** Future Trends for VET training

CREATING DIGITAL CONTENT WITH THE UTILISATION OF FREE ONLINE RESOURCES

## TESTIMONIALS

“Before enrolling in DigiVET training program, I felt overwhelmed by the digital landscape, thinking that meaningful content was out of my reach. But this course has leveled the playing field, showcasing a trove of online treasures that are free and invaluable. It’s transformed not just my content creation journey but my perception of the digital world.”
