ERASMUS+ VET, Strategic partnerships for Digital Education

DIGIVET HUB LIBRARY

[Online library of resources >](#)

The European project DigiVET project has created different resources for the Vocational Education and Training (VET) field.

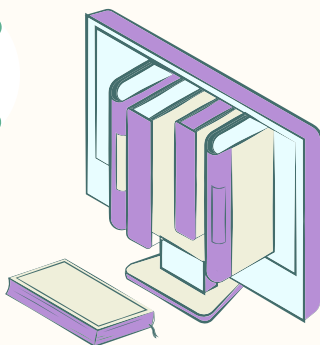

The DigiVET HUB contains at the moment **18 minimodules with digital resources for students**, on various topics.

The digital resources have been developed with the contribution of teachers and trainers from the 6 partner countries: Romania, Greece, Cyprus, Luxembourg, Italy and Austria.

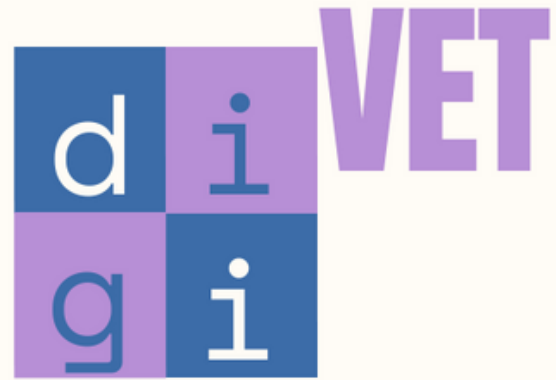

Teachers and trainers throughout the world can continue to enrich the webplatform with free online resources.
