HOW TO USE THE TOOLKIT

The **Toolkit** is a guide for school leader, teachers, learning designers, developers, researchers, support staff, to adopt a strategy for applying virtual schooling practices. It is divided into 4 sections:

1. **Pedagogical framework on virtual schooling**
2. **Virtual Schooling readiness checklist**
3. **Best practices**
4. **Step-by-step guide on virtual schooling**

The first section presents a detailed outline of strategies, guidelines, tips, and a concrete methodology that can be followed when teaching online, from the design to the actual delivery of the courses. The second section is thought for school leaders and teachers and is a checklist that measures the readiness of the schools and of the teachers to integrate virtual learning. Section 3 presents a collection of 30 best practices including tools, platforms, initiative, projects, and resources on digital education, while section 4 is a practical and simple guide for addressing virtual schooling, from curriculum alignment to health and well-being for teachers and learners. Section 2 and 4 are available in **German**, **Greek** and **Italian**.
